PROFESSIONAL EXPERIENCE

Front End Developer   **06/2021 – 01/2023**
ASSUIT AND NEW VALLEY COMPANY FOR WATER AND WASTE WATER, Egypt
- Developing and executing critical front-end features for our automation platform and sophisticated machine learning engine.
- Taking charge of developing customer-centric features to meet increasing client demand, skillfully augmenting our core product with added advantages.
- Offers an automation platform for customer service data processing.
- Crafting front-end components with a focus on usability, efficiency, and strict adherence to code standards.
- Creating detailed documentation (using Confluence) for system components and architecture, explaining the reasoning behind architectural decisions and defining the engineering contributions made by the team.
- Demonstrating flexibility and adaptability by assuming new responsibilities as required to accommodate changing workloads.
- The ability to manage multiple simultaneous tasks efficiently and the comfort of traversing frequently changing work items and scopes are all characteristics of a flexible and proficient engineering mindset.
- setting the stage for the efficient processing of customers claims

Android Developer   **05/2014 – 08/2016**
Freelancer, Montréal, Canada
- Led Android development projects, demonstrating expertise in Java and Android development technologies.
- Collaborated with cross-functional teams to deliver high-impact mobile applications, ensuring a seamless user experience.
- Implemented REST/XML APIs to enhance system functionality and improve overall performance.
- Conducted unit testing to identify and address issues, ensuring the reliability and stability of Android applications.
- Contributed to the technical architecture design, focusing on optimizing performance and user interface design.
- Reducing the amount of time our customers spend on manual processing by hours,

EDUCATION

FACULTY OF COMPUTER AND INFORMATION SYSTEMS, Assiut University, Egypt   **2009 – 2013**
BSc., Computer Science

Relevant courses

• Vue.js 3 • Vuetify • HTML, JavaScript & Bootstrap • Full stack web developer • Basic of database & design • Html 5 from beginning to expert

Projects : https://www.ascww.org/

Aims: providing online services such as inquire about water bills, provide complains, know New news, get jobs, show tenders, and ask training
